

Chapter 1 History taking

- 1.1 Algorithmic thinking
- 1.2 Preparation
- 1.3 Communication
- 1.4 Components of the paediatric history
- 1.5 Red Flags

Chapter 2 Examination of a newborn

- 2.1 Clinical scenarios
- 2.2 Pregnancy history
- 2.3 Development and delivery
- 2.4 Examination of the newborn

Chapter 3 Examination of a child

- 3.1 Recognising the sick child
- 3.2 Examining a child
- 3.3 Chaperones

Chapter 4 Growth and nutrition

- 4.1 Clinical scenarios
- 4.2 Common presentations
- 4.3 Examination of growth
- 4.4 Examination of pubertal status
- 4.5 Summary

Chapter 5 Developmental assessment

- 5.1 Clinical scenarios
- 5.2 Common presentations
- 5.2 Developmental milestones
- 5.3 Developmental assessment
- 5.4 Summary

Chapter 6 The respiratory system

- 6.1 Clinical scenarios
- 6.2 Common presentations
- 6.3 Respiratory examination
- 6.4 Summary

Chapter 7 The cardiovascular system

- 7.1 Clinical scenarios
- 7.2 Common presentations
- 7.3 Cardiac examination
- 7.4 Summary

Chapter 8 The abdomen

- 8.1 Clinical scenarios
- 8.2 Common presentations
- 8.3 Abdominal examination
- 8.4 Summary

Chapter 9 The nervous system

- 9.1 Clinical Scenarios
- 9.2 Common presentations
- 9.3 Neurological history
- 9.4 Cranial nerve examination

9.5 Peripheral nerve examination

9.6 Summary

Chapter 10 Bones, joints and muscles

10.1 Clinical scenarios

10.2 Common presentations

10.3 Musculoskeletal examination

10.4 Summary

Chapter 11 The head and neck

11.1 Clinical scenarios

11.2 Common presentations

11.3 Examination of the mouth and throat

11.4 Examination of the ears and nose

11.5 Examination of neck lumps

11.6 Summary

Chapter 12 Skin and rashes

12.1 Clinical scenarios

12.2 Common presentations

12.3 Examination of the skin

12.4 Summary

Chapter 13 Abnormal behaviour

13.1 Clinical scenarios

13.2 Common presentations

13.3 Behavioural examination

13.4 Sleep history and examination

13.5 Summary

Chapter 14 Genetic disorders and syndromes

14.1 Clinical scenarios

14.2 Common genetic syndromes

14.3 Examination for genetic syndromes

14.4 Summary
