

Contents

Section 1: The Beginning with Hysteroscopy

- 1. Introduction: Hysteroscopy and Its Philosophy** **3**
Sushma Deshmukh
- Knowing about Hysteroscopy 3
 - Philosophy of Uterus and Hysteroscope 4
 - Let us Begin 4
 - Knowing Indications and Contraindications 5
 - What Facilities We Should Provide 7
 - Mastering the Technique 7
- 2. History and Evolution of Hysteroscopy** **8**
Adam Magos
- The Foundations of Endoscopy 8
 - The Beginning of Endoscopy 9
 - The First Hysteroscopy 10
 - The Era of Modern Hysteroscopy 16
 - Final Words 18

Section 2: Knowing the Uterus

- 3. Anatomy, Embryology and Hysteroscopy** **25**
Swati Shiradkar
- Anatomy of Uterus and Tubes 25
 - Changes in Uterus with Age and Parity 30
 - Positions of the Uterus 30
 - Embryology of Uterus and Tubes 31
- 4. Physiology: The Uterus, Cervix and Practical Aspect** **34**
Manju P Jilla
- Hypothalamic-Pituitary-Ovarian Axis 34
 - Cervico-Uterine Changes at Birth, Puberty and Adult 35
 - Uterine Endometrial Histology 35
 - Receptors in the Uterus 37
 - Uterine Contractions 37
 - Cervix 38
 - Color Doppler Ultrasound and Utero-Ovarian Physiology 39
 - Applied Aspects 40
 - Cervix: Applied Aspects 41

| | |
|---|------------|
| 5. Histology and Hysteroscopic View of Normal Endometrium | 44 |
| <i>Rujuta Ayachit, Anuja Kulkarni</i> | |
| <ul style="list-style-type: none"> • Cyclic Histological Changes 44 • Endometrial Dating 45 • Atrophic Endometrium 45 • Hysteroscopic Assessment of Endometrium 46 • Traditional Classification of Hysteroscopic Appearance of Normal Endometrium 47 • Atrophic (Postmenopausal) Endometrium 47 | |
| 6. Abnormal Endometrium and Hysteroscopy | 50 |
| <i>Suprita Nayak, Sushma Deshmukh</i> | |
| <ul style="list-style-type: none"> • Abnormal Endometrium 50 • Endometrial Hyperplasia 50 • Endometrial Polyp 52 • Well-Differentiated Endometrial Carcinoma 53 • Evaluation of Endometrium 54 | |
| 7. Effects of Drugs on the Uterus | 60 |
| <i>Sanjeev Khurd, Sadhana Khurd, Aditya Khurd</i> | |
| <ul style="list-style-type: none"> • Pharmacologic Principles in Hormone Action 60 • Oral Contraceptive Pills 61 • Hormone Replacement Therapy 61 • Androgens 63 • Gonadotropin-Releasing Hormone Analogs 64 • Misoprostol 65 | |
| 8. How to Date Endometrium through Hysteroscopy without the Need of Biopsy | 66 |
| <i>Alicia Ubeda Hernandez</i> | |
| <ul style="list-style-type: none"> • Place of Endoscopic Techniques: Hysteroscopy 66 • Endometrium Through Hysteroscopy 67 | |
| Section 3: Imaging Technologies for Intrauterine Diagnosis | |
| 9. Hysterosalpingography for Intrauterine Diagnosis and Hysteroscopy | 73 |
| <i>Veerendra Kumar CM</i> | |
| <ul style="list-style-type: none"> • Scope of Hysterosalpingography 73 • Techniques 73 • Procedure 74 • Intrauterine Diagnosis 76 • Hysterosalpingography and Hysteroscopy—Diagnostic Fallacies and Comparative Studies 80 | |
| 10. Imaging Modalities for Assessment of Uterine Abnormalities | 85 |
| <i>Sonal Panchal, Chaitanya B Nagori</i> | |
| <ul style="list-style-type: none"> • Congenital Uterine Abnormalities 85 • Acquired Uterine Abnormalities 91 | |
| 11. Ultrasonography 2D, 3D and Sonohysterography in Abnormal Uterine Bleeding and Correlation with Hysteroscopy | 102 |
| <i>Neema Acharya, Narendra Malhotra, Neharika Malhotra</i> | |
| <ul style="list-style-type: none"> • Transvaginal Sonography 102 • Role of 3D Ultrasound and 3D Saline Infusion Sonohysterography 102 • Role of Hysteroscopy 104 | |

12. Beyond Ultrasound—Role of MRI in Uterine Imaging **106***Nilay S Nimbalkar, Parimal V Fuke, Prashant S Nimbalkar, Ravi Rajdeo, Rohit Gadewar*

- Normal Uterine Anatomy 106
- Uterine Leiomyomas 109
- Intrauterine Synechiae 110
- Adenomyosis 110
- Carcinoma Endometrium 112
- Uterine Anomalies 114

Section 4: Hysteroscope and Its Gadgets**13. Instrumentation in Hysteroscopy** **123***Sushma Deshmukh, Nagendra Sardeshpande, Jainesh Doctor*

- Instrumentation 123
- Hysteroscopes 123
- Mechanical Instruments 126
- Electrical Instruments 126
- Delivery Systems for Fluid Medium in Hysteroscopy 129
- Other Gynecological Instrumentation 130
- Choice of Instrumentation 130
- Maintenance and Sterilization of Instruments 131

14. Optical Principles and Camera for Hysteroscope **133***Vasudeo Ridhorkar, Anuradha Ridhorkar*

- Optical Principles for the Hysteroscope 133
- Which Equipment to Buy? 138

15. Distension Media and Fluid Management Machines **139***Rajesh Gajbhiye, Rakhi Gajbhiye*

- Gaseous Media 139
- Liquid Media 139
- Mechanisms of Systemic Absorption 140
- Managing Fluid Media 141
- Recommendations 144

16. Basics of Electrosurgery for Intrauterine Procedures: Monopolar and Bipolar **147***Atul Ganatra*

- History 147
- Basic Principles of Electrosurgery 147
- Hysteroscopy 149
- Managing Fluid Media in Electrosurgery 149

17. Laser in Office Hysteroscopy **157***Sergio Haimovich*

- Diode Laser 157
- Hysteroscopic Findings and Technique Used 159
- Septum 175

18. How to Run Hi-Tech Hysteroscopy Unit **181***B Ramesh, Shraddha Daksha*

- Operating Room Setup 181
- Technique 182

- Patient Selection and Preparation 182
- Patient Positioning 182
- Choice of Anesthesia 182
- Instrumentation 183
- Optical System 186
- Office Hysteroscopy 187
- Advanced Bipolar Versapoint (Gynecare Ethicon) 188
- Diagnostic Hysteroscopy (The Standard Technique) 188
- Operative Hysteroscopy 189
- Distention Media and Delivery System 189
- Energy Sources 191
- Data Recording System 191
- Complications 191
- Updating and Maintaining 193

Section 5: Hysteroscopy—Start with Basics

19. Diagnostic Hysteroscopy 197

Nagendra Sardeshpande

- Indications 197
- Contraindications 202
- Types of Diagnostic Hysteroscopy 203
- Instrumentation 203
- Technique 205
- Pathological Findings in Diagnostic Hysteroscopy 206
- Difficulties 210
- Complications 211

Section 6: Office Hysteroscopy

20. Office Hysteroscopy: An Approach to Modern Gynecology 215

Linda D Bradley

- Anatomic Considerations 223

21. Ambulatory Hysteroscopy for All 225

S Krishnakumar, Rohan Krishnakumar, P Kulkarni

- Indications for Ambulatory Hysteroscopy 225
- Contraindications 225
- Instrumentation 226
- Ambulatory Hysteroscopy Room 230
- Preparation and Positioning of the Patient (Including Consent) 231
- Technique of Ambulatory Hysteroscopy 232
- Anesthesia and Ambulatory Hysteroscopy 234
- Ambulatory Operative Hysteroscopy (See and Treat Clinics) 235
- Hysteroscopically Targeted Biopsy 235
- Synechiae and Septae 235
- Removal of Foreign Bodies 235

| | |
|--|------------|
| • Polypectomy 236 | |
| • Myomectomy 236 | |
| • Complications in Ambulatory Hysteroscopy 237 | |
| 22. Hysteroscopy in Adolescents | 239 |
| <i>Milind A Telang, Ridhi Desai</i> | |
